

Pictability™ Vision Setting Experience

Create a vision for your child, your family and yourself

From vision to action

Having a vision gives us the direction we need to achieve our goals. Although many parents have experienced planning for their child as a part of early childhood intervention or joining the NDIS, Pictability™ is a completely new approach.

Developed by Plumtree, Pictability™ is a fun, gamified way to help families explore new possibilities when setting a vision and planning to achieve positive outcomes. Unlike traditional methods typically led by professionals, it enables the family to shape the process.

Pictability™ gives families clarity for the future and inspiration to get started.

In this 2.5 hour practical workshop you will:

- Receive your own Pictability™ pack
- Set a vision for your child, family and self
- Get practical and set goals
- Prioritise 3 goals and identify the practical steps towards achieving them
